**Safety & Risk Management Policies and Procedures**

**Title:** Smoking & Vaping Policy  
**Date:** August 2013

**Rationale:** Southwestern University supports the concept of a healthy working and learning atmosphere throughout the entire campus. In that regard, the University has established guidelines governing the use of tobacco on campus. This applies to all employees, students, and other persons while on the premises.

**Goals:** The intention of these guidelines is to contribute to a safe and healthy working and learning environment while being responsive to and mindful of the rights and privileges of individuals.

**Policy and Procedure:**  
This policy supports the City of Georgetown Smoking Ordinance as well as meeting LEED (Leadership in Environmental and Energy Design) requirements for our LEED certified buildings.

Smoking and Vaping is prohibited in all buildings and within 25’ of building entrances, operable windows, or air intakes. This includes residence halls and apartments, balconies and patio areas.

This is a self-enforced policy that requires the support and cooperation of all community members. When necessary, approach the smoker, communicate the policy, and ask for cooperation. If this does not resolve the issue, report the matter to the proper University representative (e.g. Residence Life staff member, Campus Police, or the Department Head who supervises the employee).
